## March 2020

### *Happening in March...*

#### March 4<sup>th</sup>:

Our tumbling classes begin Wednesday for ages 3 and up! We are excited to add this to our center as a weekly activity and cannot wait for the opportunity for your children to enjoy this while attending © Sign your child up If you haven't already and are Interested In doing so!

#### March 19<sup>th</sup>:

On this day we will have a Jungle John Jurassic Journey Show on-site from 10 am to 10:45 am for ages 2 through Pre-K. Be on the lookout for field trip slips that will need to be returned along with payment!

#### March 30<sup>th</sup>:

Starting March 30<sup>th</sup> to April 4<sup>th</sup> begins the Usborne Book Sale! Usborne creates engaging, innovative, accessible books for children of all ages. Usborne books are written to appeal directly to children, and are there for every age and stage from newborn baby to young adult.

### Hello and Goodbyes

We are excited to add another floating teacher to our center Ms. Elenore whom you may have already seen around the young infant room. Also, to add Ms. Christine will be stepping down as our 3 year old teacher and will take on a floating role from 2-6. This decision did not come lightly for her as she is doing so for personal reasons.

#### Something To Add..

One of the great aspects of Brightwheel is the messaging capability. Any time you have questions, want to find out about your child's day (such as what they are learning, what activities they are working on, how they are feeling, etc) or need to relay information to your child's teacher, you can do so by using the messaging function in Brightwheel. This makes communication fast and simple! Please keep in mind that brightwheel messages are sent to the CLASSROOM, and the office does not always see the messages. **Only messages meant for your child's teacher should be sent in the brightwheel messaging function. All other messages meant for someone in the office should be called in or emailed in (numbers/email below).**

## Curriculum Corner

Studies show that children's learning is optimal when they are free to learn through **purposeful play**. **Play** is an excellent way for young children to explore the world around them. It develops students' creativity and allows them to make connections with things that are familiar to them.
