

All employees are automatically signed up for VitableHealth. Vitable will cover unlimited tele-health visits at the center and at your homes, to include nights and weekends. If the tele-health visit nurse feels an on-site nurse is required, one will be sent to you. All medical issues are covered except anything that would require an ER visit. Prescriptions are part of this plan as well! This plan covers you, your spouse, and any children you have over the age of 18 months! This also covers quarterly visits from a nurse to our center to get any health appraisals updated as needed for employees. This is all only \$15 per month per employee and will be deducted out of the first paycheck of every month. Beginnings and Beyond will only be asking you to contribute \$15 per month and we will cover the rest!

By signing below you understand and acknowledge that you will be deducted \$15 per month, in the first paycheck of every month for VitableHealth.
