

Parent Consent to Screen

Ages & Stages Questionnaires – ASQ-3/ASQ:SE-2

The first five years of life are critical for your child’s brain development and sets the stage for success in school and later in life. It is important to keep track of your child’s development to help give them the best start during these early years. Ages & Stages Questionnaires®, Third Edition (ASQ®-3) and Ages and Stages Social Emotional Questionnaires (ASQ:SE-2) are offered in Delaware and rely on YOU, the parent, as experts. These 15-minute questionnaires are easy to use and create the snapshot needed to catch delays and celebrate milestones.

By giving my consent, I understand that ASQ screening results will be shared with:

- The Delaware Department of Education (DDOE) and the Division of Public Health (DPH) within Delaware Health and Social Services (DHSS) to better support my child.
- My child care program who is required by law to track completed developmental screenings to help better support my child.
- The Birth to Three Early Intervention Program (B23) or my school district of residence and/or school district where my child care is located because they review the screenings and help with next steps.
 - I will be contacted with results via email, US mail, or phone call to assist with follow up.
